Wordpress

ABOUT ME

My name is Andrey, I'm from Ukraine. As a self-taught developer, I have a passion for web development and a desire to learn and grow in the field. My strengths lie in my attention to detail and my ability to problem solve. I enjoy working collaboratively with others and am always seeking new challenges to improve my skills. I am motivated, dedicated, and excited to begin my career in Front-End Development.

EXPERIENCE

For the four months, I have worked as a freelance Front-End Developer. In this role, I have primarily focused on converting designs from Figma or PSD to HTML/CSS and integrating them into existing websites. I have also developed new components and added additional functionality to both landing pages and Wordpress sites. Additionally, I have experience with integrating HTML/CSS into Wordpress CMS.
